

# More results. Less risk.

More than document management,  
NetDocuments is where legal work gets done.

**NetDocuments** is the leader in secure legal document management and practice productivity tools. Military grade encryption and anywhere access for your team means more peace of mind and greater productivity. There's a reason why we're the only platform in our space you can count on for total transparency on uptime and system performance. With a market-leading partner ecosystem, we deliver everything you need to take control of documents and emails while simplifying workflows. First in the cloud, and still the best.

## NetDocuments

Fast, efficient, secure document management and more. True cloud technology empowers you to create, view, edit, and share content on any device without fear of data loss or security risk.

## ndThread

Stay ahead of fast-moving projects and matters with real-time communication. ndThread keeps your team connected with quick, secure, work-anywhere direct messaging and annotation.

## ndOffice

Work natively in Microsoft® Office and Adobe Acrobat and easily save all your work products back to NetDocuments. Our integrations make the whole process simple and secure.

## SetBuilder

Compile and organize individual closing or onboarding documents into structured sets you can access securely in one location. Publish a single, hyperlinked PDF for easy digital distribution.

## ndMail

Beat inbox overload with project- and matter-based cloud email management. Effortlessly save and organize email content with predictive filing. Link Outlook with NetDocuments on any browser or device.

## CollabSpaces

Share NetDocuments content with external users without risk, delay, or wasted motion. CollabSpaces gives you intuitive, need-to-know control over matter- or project-centered files.

## Do more and win bigger with NetDocuments services and partners.

Document management is only the beginning with NetDocuments. Our dedicated customer success team, and our global ecosystem of best-of-breed partners, are here to deliver a concierge-level experience, and to ensure that you get maximum value from the NetDocuments platform.

### NetDocuments Partner Ecosystem

Our select team of worldwide implementation and technology partners will get your team productive in NetDocuments quickly, or help you to add best-of-breed extended functionality.

### Security Center

Consolidate key security controls for administrators in one place. Simplify and fortify encryption key management, DLP, geo-aware storage, and compliance-as-a-service resources.

### NetDocuments App Store

Access hundreds of integrated applications to customize your NetDocuments experience around specific business or governance needs. Handle workflow, document comparison, and more.

### NetDocuments Technologists and Visionaries

We were the first to connect law firms to the competitive power of the cloud. While others scrambled to rush imitations to market, we focused on advancing our technology leadership year over year. Those same visionaries are still here to talk with you about how the first and best cloud-only content services platform can extend your winning edge for years to come.

### NetDocuments Customer Success Team

Imagine a high-end personal trainer who does tech instead of workouts. Your NetDocuments CSR applies their product and business mastery every day to help you meet your goals

### NetDocuments Governance Team

Compliance and governance is at the heart of the NetDocuments platform. We have dedicated in-house experts who can help you navigate regulatory waters for yourself and your clients.
